Audit of management of senile retinoschisis (2004)
Timing of cataract extraction in glaucoma patients (2003)

RESEARCH

Principal investigator:

COMRADE B - 6-months multinational double-masked randomised comparative study – BRVO associated macular oedema treatment with Ozurdex vs. Lucentis - since 2011

COMRADE C - 6-months multinational double-masked randomised comparative study – CRVO associated macular oedema treatment with Ozurdex vs. Lucentis - since 2011

Co-Investigator:

LUMINOUS study - a multi-centre observational study - AMD treatment with Lucentis - since 2011

RETAIN study - a multi-centre double-masked randomised comparative study - DME treatment with Lucentis vs. laser - since 2011

GMAN study - an open labeled single-site comparative study - AMD treatment with continuous vs. as required Avastin - since 2011

INTREPID study - a multinational randomised comparative study - IRay (radiotherapy) for AMD - since 2011

IVAN study - a multi-centre double-masked randomised comparative study - AMD treatment with Lucentis vs. Avastin - 2008 - 2011

Effect of Choline Fenofibrate on DME (Solvay) - a multi-centre placebo-controlled randomised study - 2008 - 2009
